

Pilot Trend EPI Scores (2000–2010)

Environmental Performance Index (EPI)

The Pilot Trend Environmental Performance Index (Trend EPI) ranks countries on the change in their environmental performance over the last decade. Developed as a complement to the Environmental Performance Index (EPI), the Trend EPI shows which countries are improving and which are declining over time. The full report, including a complete description of the Trend EPI, underlying data sets, and methodology, is available online at the NASA Socioeconomic Data and Applications Center (SEDAC).
